

Johnson Controls has used ingenuity and innovation to become the world's largest provider of automotive batteries and continues to break new ground by developing advanced battery chemistries for hybrids.

Johnson Controls' battery plant in Holland is among the first fully dedicated lithium-ion automotive battery facilities in the world. The plant was made possible in part by a \$299 million matching grant through the American Recovery and Reinvestment Act along with \$168.5 million in incentives from the state of Michigan. Johnson Controls batteries "are making their way into real vehicles for real customers", states Mary Ann Wright, vice president for Technology and Innovation.

Ben Darga inspects a Lithium-Ion battery at the Johnson Controls Meadowbrook facility in Holland, MI

WM-AWMA October Luncheon

Li Ion Battery Manufacturing in West Michigan
Luncheon and Plant Tour

Johnson Controls Li Ion Battery Manufacturing Plant
Holland, MI

October 19, 2011

REGISTER

Registration open until **October 11th** or until the available tour openings are filled, whichever occurs first .

Refund Policy: Registration fees are refundable for cancellations received prior to the deadline.

Presenters

Bruce Adair, Lakeshore Advantage
Chris Keskitalo, Johnson Controls

LIMITED TOUR PARTICIPATION:

Three individual tours of the Johnson Controls battery plant are scheduled for October 19th. Each tour is limited to a maximum of 15 participants. Since the number of tour participants is limited and some registration restrictions apply, please register early to take advantage of this program opportunity!

President Obama Praises Advanced Battery Center

President Barack Obama's tour of the new Johnson-Controls Meadowbrook advanced battery center in Holland, Mich. on Aug. 11, 2011, led to praise for the facility and Johnson Controls' leadership in the advanced battery industry.

"At a time when Americans are rightly focused on our economy, when Americans are asking about what's our path forward, all of you

here at Johnson Controls are providing a powerful answer....This is one of the most advanced factories in the world. You're helping America lead in a growing new industry. You're showing us how we can come back from the worst recession that we've had in generations and start making things here in America that are sold all around the world."

Program Agenda:

11:00 AM—Registration

11:30 AM—Program & Lunch at the Doubletree by Hilton Hotel
650 East 24th Street, Holland, Michigan 49423

12:30 PM—Plant Tours at Johnson Controls
70 W. 48th Street, Holland, Michigan 49423
